1 department shall not transfer state moneys that are provided solely for  
2 a specified purpose except as expressly provided in (b) of this  
3 subsection.

4 (b) To the extent that transfers under (a) of this subsection are  
5 insufficient to fund actual expenditures in excess of fiscal year 2006  
6 caseload forecasts and utilization assumptions in the medical  
7 assistance, long-term care, foster care, adoption support, and child  
8 support programs, the department may transfer state moneys that are  
9 provided solely for a specified purpose, other than family support  
10 appropriations for the developmental disabilities program in section  
11 205(1)(e) of this act, after approval by the director of financial  
12 management.

13 (c) The director of financial management shall notify the  
14 appropriate fiscal committees of the senate and house of  
15 representatives in writing seven days prior to approving any allotment  
16 modifications or transfers under this subsection. The written  
17 notification shall include a narrative explanation and justification of  
18 the changes, along with expenditures and allotments by budget unit and  
19 appropriation, both before and after any allotment modifications or  
20 transfers.

21 (4) The department is authorized to expend up to \$13,500,000 of its  
22 general fund--state appropriation for fiscal year 2007 for any

33 (WMIP) the department may combine and transfer such Medicaid funds  
34 appropriated under sections 204, 206, 208, and 209 of this act as may  
35 be necessary to finance a unified health care plan for the WMIP program  
36 enrollment. The WMIP pilot projects shall not exceed a daily  
37 enrollment of 6,000 persons during the 2005-2007 biennium. The amount  
38 of funding assigned to the pilot projects from each program may not

1 exceed the average per capita cost assumed in this act for individuals  
 2 covered by that program, actuarially adjusted for the health condition  
 3 of persons enrolled in the pilot, times the number of clients enrolled  
 4 in the pilot. In implementing the WMIP pilot projects, the department  
 5 may: (a) Withhold from calculations of "available resources" as set

 11 The department shall conduct an evaluation of the WMIP, measuring  
 12 changes in participant health outcomes, changes in patterns of service  
 13 utilization, participant satisfaction, participant access to services,  
 14 and the state fiscal impact.

15 ~~((4))~~ (6) In accordance with RCW 74.39A.300, the appropriations  
 16 to the department of social and health services in this act are  
 17 sufficient to implement the compensation and fringe benefits of the  
 18 collective bargaining agreement reached between the governor and the  
 19 exclusive bargaining representative of individual providers of home  
 20 care services.

21 (7) No state or federal funds appropriated in sections 202 through

1 The appropriations in this section are subject to the following  
2 conditions and limitations:

3 (1) (~~(\$1,500,000)~~) \$1,350,000 of the problem gambling (~~treatment~~)  
4 account appropriation is provided solely for the program established in  
5 Engrossed Substitute House Bill No. 1031 (problem gambling). If

18 (mental disorders treatment).

19 (3) \$2,000,000 of the general fund--state appropriation for fiscal

27 appropriation are provided solely for vendor rate adjustments for  
28 residential treatment providers. To the extent that a portion of this  
29 funding is sufficient to maintain sufficient residential treatment  
30 capacity, remaining amounts may then be used to provide vendor rate  
31 adjustments to other types of providers as prioritized by the  
32 department in order to maintain or increase treatment capacity.

33 (5) \$1,916,000 of the general fund--state appropriation for fiscal

28 appropriation are provided solely to increase capacity of chemical  
29 dependency treatment services for minors who are under 200 percent of  
30 the federal poverty level. The department shall monitor the number and  
31 type of clients entering treatment, for purposes of determining  
32 potential cost offsets.

14		<u>\$7,706,665,000</u>

15       The appropriations in this section are subject to the following  
16 conditions and limitations:

17       (1) Based on quarterly expenditure reports and caseload forecasts,  
18 if the department estimates that expenditures for the medical  
19 assistance program will exceed the appropriations, the department shall  
20 take steps including but not limited to reduction of rates or  
21 elimination of optional services to reduce expenditures so that total  
22 program costs do not exceed the annual appropriation authority.

23       (2) The department shall continue to extend medicaid eligibility to  
24 children through age 18 residing in households with incomes below 200  
25 percent of the federal poverty level.

26       (3) In determining financial eligibility for medicaid-funded  
27 services, the department is authorized to disregard recoveries by  
28 Holocaust survivors of insurance proceeds or other assets, as defined  
29 in RCW 48.104.030.

30       (4) Sufficient amounts are appropriated in this section for the  
31 department to continue podiatry services for medicaid-eligible adults.

32       (5) Sufficient amounts are appropriated in this section for the  
33 department to provide an adult dental benefit that is equivalent to the  
34 benefit provided in the 2003-05 biennium.

35       (6) In accordance with RCW 74.46.625, \$6,000,000 of the general  
36 fund--federal appropriation is provided solely for supplemental  
37 payments to nursing homes operated by public hospital districts. The  
38 public hospital district shall be responsible for providing the

1 required nonfederal match for the supplemental payment, and the  
2 payments shall not exceed the maximum allowable under federal rules.  
3 It is the legislature's intent that the payments shall be supplemental  
4 to and shall not in any way offset or reduce the payments calculated  
5 and provided in accordance with part E of chapter 74.46 RCW. It is the  
6 legislature's further intent that costs otherwise allowable for rate-  
7 setting and settlement against payments under chapter 74.46 RCW shall  
8 not be disallowed solely because such costs have been paid by revenues  
9 retained by the nursing home from these supplemental payments.

10 (7) (~~(\$1,660,000)~~) \$2,221,000 of the health services account  
11 appropriation, (~~(\$4,361,000)~~) \$5,402,000 of the general fund--federal  
12 appropriation, (~~(\$1,350,000)~~) \$1,590,000 of the general fund--state  
13 appropriation for fiscal year 2006, and (~~(\$1,351,000)~~) \$1,591,000 of  
14 the general fund--state appropriation for fiscal year 2007 are provided  
15 solely for grants to rural hospitals. The department shall distribute  
16 the funds under a formula that provides a relatively larger share of  
17 the available funding to hospitals that (a) serve a disproportionate  
18 share of low-income and medically indigent patients and (b) have  
19 relatively smaller net financial margins, to the extent allowed by the  
20 federal medicaid program.

21 (8) (~~(\$22,081,000)~~) \$21,092,000 of the health services account  
22 appropriation and (~~(\$20,714,000)~~) \$19,725,000 of the general fund--  
23 federal appropriation are provided solely for grants to nonrural  
24 hospitals. The department shall distribute the funds under a formula  
25 that provides a relatively larger share of the available funding to  
26 hospitals that (a) serve a disproportionate share of low-income and  
27 medically indigent patients and (b) have relatively smaller net  
28 financial margins, to the extent allowed by the federal medicaid  
29 program.

30 (9) In response to the federal directive to eliminate  
31 intergovernmental transfer transactions effective June 30, 2005, the  
32 department is directed to implement the inpatient hospital certified  
33 public expenditures program for the 2005-07 biennium. The program  
34 shall apply to all public hospitals, including those owned or operated  
35 by the state, except those classified as critical access hospitals or  
36 state psychiatric institutions. Hospitals in the program shall be paid  
37 and shall retain (a) one hundred percent of the federal portion of each  
38 medicaid inpatient fee-for-service claim payable by the medical

1 assistance administration; and (b) one hundred percent of the federal  
2 portion of the maximum disproportionate share hospital payment  
3 allowable under federal regulations. Medicaid fee-for-service claim  
4 amounts shall be established by applying the department's ratio of  
5 costs to charges payment methodology. The department shall provide  
6 participating hospitals with the information and instructions needed by  
7 the hospital to certify the public expenditures required to qualify for  
8 the federal portions of both the medicaid inpatient fee-for-service  
9 payments and the disproportionate share hospital payments. In the  
10 event that any part of the program including, but not limited to,  
11 allowable certified public expenditures, is disallowed by the federal  
12 government, the department shall not seek recoupment of payments from  
13 the hospitals, provided the hospitals have complied with the directions  
14 of the department for participation in the program. The legislature  
15 intends that hospitals in the program receive no less in combined state  
16 and federal payments than they would have received under the  
17 methodology that was in place during fiscal year 2005. The department  
18 shall therefore make additional grant payments, not to exceed the  
19 amounts (~~provided~~) specified in this subsection, to hospitals whose  
20 total payments under the program would otherwise be less than the total  
21 state and federal payments they would have received under the  
22 methodology in effect during fiscal year 2005. (~~(\$37,034,000 of the~~

29 under these new state grant and upper payment limit programs shall not  
30 exceed \$53,159,000 from general fund--state appropriations in fiscal  
31 year 2006, of which \$5,600,000 is appropriated in section 204(1) of  
32 this 2006 act and the balance in this section; \$46,548,000 from general  
33 fund--state appropriations in fiscal year 2007, of which \$5,600,000 is  
34 appropriated in section 204(1) of this 2006 act and the balance in this  
35 section; and \$11,328,000 from the general fund--federal appropriations  
36 in this section.~~

37 (10) (~~\$4,372,000~~) \$4,077,000 of the general fund--state  
38 appropriation for fiscal year 2006, (~~\$4,014,000~~) \$4,847,000 of the

1 general fund--state appropriation for fiscal year 2007, and  
2 (~~(\$65,112,000)~~) \$70,100,000 of the general fund--federal appropriation  
3 are provided solely for development and implementation of a replacement  
4 system for the existing medicaid management information system.

5 (11) (~~(\$150,000)~~) \$188,000 of the general fund--state appropriation  
6 for fiscal year 2006, (~~(\$75,000)~~) \$37,000 of the general fund--state  
7 appropriation for fiscal year 2007, and \$225,000 of the general fund--  
8 federal appropriation are provided solely for the department to  
9 contract for an independent analysis of the medical assistance  
10 administration's current system for establishing hospital inpatient  
11 payment rates, and for recommendations on a new or updated system. The  
12 department shall submit an interim report of study findings by December  
13 1, 2005, and a final report by November 15, 2006. The interim report  
14 shall include a comparison of the strengths and weaknesses of the  
15 current rate-setting system relative to those used by other state,  
16 federal, and private payers. The final report shall include  
17 recommendations on the design and implementation of a new or updated  
18 system that will promote equity among hospitals, access to quality care  
19 and improved health outcomes for patients, and cost-control and  
20 efficiency for taxpayers. The study should make use of complete and  
21 current cost data from a wide variety of hospitals, recognize unique  
22 aspects of hospital service delivery structures and medicaid payment  
23 systems in Washington, recognize impacts on productivity and quality of  
24 care that may result from hospital compensation, recruitment, and  
25 retention policies, and provide opportunities for comment and  
26 participation by key interest groups in the identification and  
27 assessment of alternatives.

28 (12) Payment rates for hospital inpatient and outpatient services  
29 shall be increased by an average of 1.3 percent effective July 1, 2005,  
30 and by an average of an additional 1.3 percent effective July 1, 2006.  
31 The inpatient increases shall be provided only on the portion of a  
32 hospital's rate that excludes medical education and outlier costs, and  
33 shall be allocated so that hospitals with lower costs of care  
34 (excluding medical education and outlier costs) receive larger  
35 percentage increases than those with higher costs of care. The  
36 inpatient increases shall be allocated in three percentage increments,  
37 with the lowest-cost hospitals receiving the largest percentage rate  
38 increase, highest-cost hospitals receiving the smallest percentage

1 increase, and medium-cost hospitals receiving the average of the  
2 highest and the lowest percentage rate increase. Increases shall not  
3 be provided to those hospitals that are certified as critical access.  
4 Sufficient funds are appropriated in this section for Healthy Options  
5 contractors to increase hospital payment rates commensurate with the  
6 increases in fee-for-service payment rates.

7 (13) When a person is ineligible for medicaid solely by reason of  
8 residence in an institution for mental diseases, the department shall  
9 provide the person with the same benefits as he or she would receive if  
10 eligible for medicaid, using state-only funds to the extent necessary.

11 (14) The medical assistance administration is authorized to use  
12 funds appropriated in this section to purchase goods and supplies  
13 through direct contracting with vendors when the administration  
14 determines it is cost-effective to do so.

5 (i) Credits earned since receiving the masters degree; and

6 (ii) Any credits in excess of forty-five credits that were earned

5 section 504 of this act. Included in the 2005-06 school year rate is  
6 a one-time increase of \$1.12 to offset extraordinary increases in the  
7 price of diesel fuel. Allocations for transportation of students  
8 transported more than one radius mile shall be based on weighted miles  
9 as determined by superintendent of public instruction multiplied by the  
10 per mile reimbursement rates for the school year pursuant to the  
11 formulas adopted by the superintendent of public instruction.  
12 Allocations for transportation of students living within one radius  
13 mile shall be based on the number of enrolled students in grades  
14 kindergarten through five living within one radius mile of their  
15 assigned school multiplied by the per mile reimbursement rate for the  
16 school year multiplied by 1.29.

17 (5) For busses purchased between July 1, 2005, and June 30, 2007,  
18 the office of superintendent of public instruction shall provide  
19 reimbursement funding to a school district only after the  
20 superintendent of public instruction determines that the school bus was  
21 purchased from the list established pursuant to RCW 28A.160.195(2) or  
22 a comparable competitive bid process based on the lowest price quote  
23 based on similar bus categories to those used to establish the list  
24 pursuant to RCW 28A.160.195. The competitive specifications shall meet  
25 federal motor vehicle safety standards, minimum state specifications as  
26 established by rule by the superintendent, and supported options as  
27 determined by the superintendent in consultation with the regional  
28 transportation coordinators of the educational service districts.

29 (6) Beginning with the 2005-06 school year, the superintendent of  
30 public instruction shall base depreciation payments for school district  
31 buses on the five-year average of lowest bids in the appropriate  
32 category of bus. In the final year on the depreciation schedule, the  
33 depreciation payment shall be based on the current state price. The  
34 superintendent may include a weighting or other adjustment factor in  
35 the averaging formula to ease the transition from the current-price  
36 depreciation system to the average depreciation system. Prior to  
37 making any depreciation payment in the 2005-06 school year, the  
38 superintendent shall notify the office of financial management and the

1 fiscal committees of the legislature of the specific depreciation  
2 formula to be used. The replacement cost shall be based on the lowest  
3 bid in the appropriate bus category for that school year. A maximum of  
4 \$50,000 of the fiscal year 2006 appropriation may be expended for  
5 software programming costs associated with the implementation of this  
6 subsection.

11 The appropriations in this section are subject to the following  
12 conditions and limitations:

13 (1) Funding for special education programs is provided on an excess  
14 cost basis, pursuant to RCW 28A.150.390. School districts shall ensure  
15 that special education students as a class receive their full share of  
16 the general apportionment allocation accruing through sections 502 and  
17 504 of this act. To the extent a school district cannot provide an  
18 appropriate education for special education students under chapter  
19 28A.155 RCW through the general apportionment allocation, it shall  
20 provide services through the special education excess cost allocation  
21 funded in this section.

22 (2)(a) The superintendent of public instruction shall use the  
23 excess cost methodology developed and implemented for the 2001-02  
24 school year using the S-275 personnel reporting system and all related  
25 accounting requirements to ensure that:

- 26 (i) Special education students are basic education students first;
- 27 (ii) As a class, special education students are entitled to the  
28 full basic education allocation; and
- 29 (iii) Special education students are basic education students for  
30 the entire school day.

31 (b) The S-275 and accounting changes in effect since the 2001-02  
32 school year shall supercede any prior excess cost methodologies and  
33 shall be required of all school districts.

34 (3) Each fiscal year appropriation includes such funds as are  
35 necessary to complete the school year ending in the fiscal year and for  
36 prior fiscal year adjustments.

37 (4) The superintendent of public instruction shall distribute state  
38 and federal funds to school districts based on two categories: The

1 optional birth through age two program for special education eligible  
2 developmentally delayed infants and toddlers, and the mandatory special  
3 education program for special education eligible students ages three to  
4 twenty-one. A "special education eligible student" means a student  
5 receiving specially designed instruction in accordance with a properly  
6 formulated individualized education program.

7 (5)(a) For the 2005-06 and 2006-07 school years, the superintendent  
8 shall make allocations to each district based on the sum of:

9 (i) A district's annual average headcount enrollment of  
10 developmentally delayed infants and toddlers ages birth through two,  
11 multiplied by the district's average basic education allocation per  
12 full-time equivalent student, multiplied by 1.15; and

13 (ii) A district's annual average full-time equivalent basic  
14 education enrollment multiplied by the funded enrollment percent  
15 determined pursuant to subsection (6)(b) of this section, multiplied by  
16 the district's average basic education allocation per full-time  
17 equivalent student multiplied by 0.9309.

18 (b) For purposes of this subsection, "average basic education  
19 allocation per full-time equivalent student" for a district shall be  
20 based on the staffing ratios required by RCW 28A.150.260 and shall not  
21 include enhancements, secondary vocational education, or small schools.

22 (6) The definitions in this subsection apply throughout this  
23 section.

24 (a) "Annual average full-time equivalent basic education  
25 enrollment" means the resident enrollment including students enrolled  
26 through choice (RCW 28A.225.225) and students from nonhigh districts  
27 (RCW 28A.225.210) and excluding students residing in another district  
28 enrolled as part of an interdistrict cooperative program (RCW  
29 28A.225.250).

30 (b) "Enrollment percent" means the district's resident special  
31 education annual average enrollment, excluding the birth through age  
32 two enrollment, as a percent of the district's annual average full-time  
33 equivalent basic education enrollment.

34 Each district's general fund--state funded special education  
35 enrollment shall be the lesser of the district's actual enrollment  
36 percent or 12.7 percent.

37 (7) At the request of any interdistrict cooperative of at least 15  
38 districts in which all excess cost services for special education

1 students of the districts are provided by the cooperative, the maximum  
2 enrollment percent shall be calculated in accordance with subsection  
3 (6)(b) of this section, and shall be calculated in the aggregate rather  
4 than individual district units. For purposes of this subsection, the  
5 average basic education allocation per full-time equivalent student  
6 shall be calculated in the aggregate rather than individual district  
7 units.

8 (8) To the extent necessary, \$18,940,000 of the general fund--state  
9 appropriation and (~~(\$28,698,000)~~) \$29,081,000 of the general fund--  
10 federal appropriation are provided for safety net awards for districts  
11 with demonstrated needs for special education funding beyond the  
12 amounts provided in subsection (5) of this section. If safety net  
13 awards exceed the amount appropriated in this subsection (8), the  
14 superintendent shall expend all available federal discretionary funds  
15 necessary to meet this need. Safety net funds shall be awarded by the  
16 state safety net oversight committee subject to the following  
17 conditions and limitations:

18 (a) The committee shall consider unmet needs for districts that can  
19 convincingly demonstrate that all legitimate expenditures for special  
20 education exceed all available revenues from state funding formulas.  
21 In the determination of need, the committee shall also consider  
22 additional available revenues from federal sources. Differences in  
23 program costs attributable to district philosophy, service delivery  
24 choice, or accounting practices are not a legitimate basis for safety  
25 net awards.

26 (b) The committee shall then consider the extraordinary high cost  
27 needs of one or more individual special education students.  
28 Differences in costs attributable to district philosophy, service  
29 delivery choice, or accounting practices are not a legitimate basis for  
30 safety net awards.

31 (c) The maximum allowable indirect cost for calculating safety net  
32 eligibility may not exceed the federal restricted indirect cost rate  
33 for the district plus one percent.

34 (d) Safety net awards shall be adjusted based on the percent of  
35 potential medicaid eligible students billed as calculated by the  
36 superintendent in accordance with chapter 318, Laws of 1999.

37 (e) Safety net awards must be adjusted for any audit findings or  
38 exceptions related to special education funding.

1 (9) The superintendent of public instruction may adopt such rules  
2 and procedures as are necessary to administer the special education  
3 funding and safety net award process. Prior to revising any standards,  
4 procedures, or rules, the superintendent shall consult with the office  
5 of financial management and the fiscal committees of the legislature.

6 (10) The safety net oversight committee appointed by the  
7 superintendent of public instruction shall consist of:

8 (a) One staff from the office of superintendent of public  
9 instruction;

10 (b) Staff of the office of the state auditor who shall be nonvoting  
11 members of the committee; and

12 (c) One or more representatives from school districts or  
13 educational service districts knowledgeable of special education  
14 programs and funding.

15 (11) A maximum of \$678,000 may be expended from the general fund--  
16 state appropriations to fund 5.43 full-time equivalent teachers and 2.1  
17 full-time equivalent aides at children's orthopedic hospital and  
18 medical center. This amount is in lieu of money provided through the  
19 home and hospital allocation and the special education program.

20 (12) A maximum of \$1,000,000 of the general fund--federal  
21 appropriation is provided for projects to provide special education  
22 students with appropriate job and independent living skills, including  
23 work experience where possible, to facilitate their successful  
24 transition out of the public school system. The funds provided by this  
25 subsection shall be from federal discretionary grants.

26 (13) A maximum of \$100,000 of the general fund--federal  
27 appropriation shall be expended to create a special education ombudsman  
28 program within the office of superintendent of public instruction. The  
29 purpose of the program is to provide support to parents, guardians,  
30 educators, and students with disabilities. The program will provide  
31 information to help families and educators understand state laws,  
32 rules, and regulations, and access training and support, technical  
33 information services, and mediation services. The ombudsman program  
34 will provide data, information, and appropriate recommendations to the  
35 office of superintendent of public instruction, school districts,  
36 educational service districts, state need projects, and the parent and  
37 teacher information center.

1 (14) The superintendent shall maintain the percentage of federal  
2 flow-through to school districts at 85 percent. In addition to other  
3 purposes, school districts may use increased federal funds for high-  
4 cost students, for purchasing regional special education services from  
5 educational service districts, and for staff development activities  
6 particularly relating to inclusion issues.

7 (15) A maximum of \$1,200,000 of the general fund--federal  
8 appropriation may be expended by the superintendent for projects  
9 related to use of inclusion strategies by school districts for  
10 provision of special education services.

11 (16) \$1,400,000 of the general fund--federal appropriation shall be  
12 expended for one-time grants to school districts for the start-up costs  
13 of implementing web-based programs that assist schools in meeting state  
14 and federal requirements regarding individualized education plans.

15 (17) The superintendent, consistent with the new federal IDEA  
16 reauthorization, shall continue to educate school districts on how to  
17 implement a birth-to-three program and review the cost effectiveness  
18 and learning benefits of early intervention.

19 (18) A school district may carry over from one year to the next  
20 year up to 10 percent of the general fund--state funds allocated under  
21 this program; however, carry over funds shall be expended in the  
22 special education program.

23 (19) \$1,874,000 of the general fund--state appropriation for fiscal  
24 year 2006 and \$1,874,000 of the general fund--state appropriation for  
25 fiscal year 2007 are provided solely for additional allocations to  
26 address extraordinary costs in the 2005-06 and 2006-07 school years  
27 resulting from the concentration of high-needs students in staffed  
28 residential home placements licensed by the department of social and  
29 health services.

30 (a) The superintendent shall provide school districts with an  
31 allocation for each public school student in that district who has a  
32 properly formulated individualized education program and who resides in  
33 a staffed residential home licensed by the department of social and  
34 health services. The allocation is an amount equal to the difference  
35 between the statewide average per-pupil general apportionment  
36 allocation and the eligibility threshold for receiving a state-funded  
37 safety net grant for the extraordinary high cost needs of an individual  
38 student receiving special education services.

1       (b) In addition to the allocation in (a) of this subsection (19),  
2 the superintendent shall provide districts with a concentration  
3 allocation if the district's concentration of students who have  
4 properly formulated individualized education programs, who live in  
5 staffed residential homes, and who were originally placed by the  
6 division of developmental disabilities exceeds 1.5 per 1000 FTEs. For  
7 such districts, the superintendent shall provide a concentration  
8 allocation for each student who lives in a staffed residential home and  
9 has a properly formulated individualized education program. The  
10 concentration allocation is equal to the difference between the  
11 eligibility threshold for receiving a state-funded safety net  
12 allocation for the extraordinary high cost needs of an individual  
13 special education student and three times the statewide average per-  
14 pupil expenditure.

15       (c) The additional allocations in this subsection (19) are provided  
16 in lieu of special education excess cost funding for these students.

17       (d) In addition, school districts are eligible to pursue safety net  
18 funding beyond these additional allocations so that where districts  
19 demonstrate eligibility for safety net funding the combined basic  
20 education allocation, additional allocations in (a) and (b) of this  
21 subsection (19), and safety net grants recognize the high cost of  
22 servng staffed residential home students concentrated in a few school  
23 districts through state licensing of staffed residential home  
24 placements.

25       (e) For purposes of this subsection (19), "staffed residential  
26 home" means a home licensed by the department of social and health  
27 services to provide twenty-four hour care for six or fewer children or  
28 expectant mothers, which employs staff to care for them.

35 meet student needs. Funds allocated under this section shall not be  
36 considered basic education funding. Amounts allocated under this

1 section shall fund new extended learning opportunities, and shall not  
2 supplant funding for existing programs and services.

3 (2) School district allocations for promoting academic success  
4 programs shall be calculated as follows:

5 (a) A portion of the district's student units shall be the number  
6 of content area assessments (reading, writing, and mathematics) on  
7 which students were more than one standard error of measurement from  
8 meeting standard on the Washington assessment of student learning for  
9 the current class of eleventh grade students.

10 (b) The other portion of the district's student units shall be the  
11 number of content area assessments (reading, writing, and mathematics)  
12 on which students were less than one standard error of measurement from  
13 meeting standard but did not meet standard on the Washington assessment  
14 of student learning for the current class of eleventh grade students.  
15 Districts with at least one but less than 20 student units combining  
16 the student units generated from this subsection and (a) of this  
17 subsection shall be counted as having 20 student units for the purposes  
18 of the allocations in (c) and (d)(A) of this subsection.

19 (c) Allocations for certificated instructional staff salaries and  
20 benefits shall be determined using formula-generated staff units  
21 calculated pursuant to this subsection. Ninety-four hours of  
22 certificated instructional staff units are allocated per 13.0 student  
23 units as calculated under (a) of this subsection and thirty-four hours  
24 of certificated instructional staff units are allocated per 13.0  
25 student units as calculated under (b) of this subsection. Allocations  
26 for salaries and benefits for the staff units calculated under this  
27 subsection shall be calculated in the same manner as provided under  
28 section 503 of this act. Salary and benefit increase funding for staff  
29 units generated under this section is included in section 504 of this  
30 act.

31 (d) The legislature recognizes that some students in the class of  
32 2007 may wish to retake the WASL even though it is not a graduation  
33 requirement. Accordingly, funding in this section provides  
34 certificated instructional staff units as described in (c) of this  
35 subsection for all students in the class of 2007 who register to retake  
36 the WASL and want remedial assistance.

37 (e) The legislature recognizes that professional development and  
38 planning for teachers is an important component of high quality

1 extended learning activities. Accordingly, a one-time funding amount  
2 equal to 20 hours of certificated instructional staff units per 13.0  
3 student units, as calculated in (a) and (b) of this subsection, is  
4 provided in this section to insure that extended learning activities  
5 are of high quality and aligned to the state's essential academic  
6 learning requirements.

7 (f) The following additional allocations are provided per student  
8 unit, as calculated in (a) of this subsection:

9 (A) \$12.50 for maintenance, operations, and transportation;

10 (B) \$12.00 for pre- and post-remediation assessments;

11 (C) \$17.00 per reading remediation student unit;

18 defined in RCW 28A.510.250.

19 (3) School districts shall report annually to the office of the  
20 superintendent of public instruction on the use of these funds,  
21 including the types of assistance selected by students, the number of  
22 students receiving each type of assistance, and the impact on WASL test  
23 scores.

24 (4) \$1,500,000 of the general fund--state appropriation for fiscal  
25 year 2007 is provided for competitive innovation grants awarded to  
26 schools and school districts for implementing high school remediation  
27 programs that are unique in program delivery, program accessibility,  
28 program content, or a combination of these factors and that serve  
29 students who have not achieved success on the tenth grade WASL.

30 (5) School districts may carry over from one year to the next up to  
31 20 percent of funds allocated under this program; however, carryover  
32 funds shall be expended for promoting academic success programs, and  
33 may be used to provide extended learning programs for students beyond

8 **Sec. 602.** 2005 c 518 s 603 (uncodified) is amended to read as  
9 follows:

10 **FOR THE STATE BOARD FOR COMMUNITY AND TECHNICAL COLLEGES**

11 General Fund--State Appropriation (FY 2006) . . . . .	(( <del>\$556,499,000</del> ))

34 has not been able to successfully address the region's access needs.  
35 The university center model of service delivery, centered on a  
36 community college campus with a single point of accountability, has

1 proven more effective in developing degree programs and attracting  
2 students.

3 Therefore, the management and leadership responsibility for  
4 consortium operations are assigned to Everett community college.  
5 Everett community college shall collaborate with community and business  
6 leaders, other local community colleges, the public four-year

30 sections 949 through 980 of this act are estimated to increase the  
31 total per student funding during the 2005-2007 biennium. This increase  
32 in total per student funding is in addition to the tuition revenues  
33 that will be generated and retained by the community and technical  
34 colleges as a result of the tuition increases that are authorized in  
35 section 601 of this act. Given these increases in core funding, the

6 Specific six-year targets for the goals stated in this subsection  
7 shall be established by the state board and the office of financial  
8 management and shall be determined based on the per student funding  
9 level assumed in this act.

10 The state board for community and technical colleges shall provide  
11 a summary of the progress and ongoing efforts toward meeting the  
12 provisions of this section to the governor and the appropriate fiscal

4 in fiscal year 2007, the state board shall determine the method of  
5 allocating to the community and technical colleges the appropriations  
6 granted for academic employee increments, provided that the amount of  
7 the appropriation attributable to the proportionate share of the part-  
8 time faculty salary base shall only be accessible for part-time  
9 faculty.

26		<u>\$123,814,000</u>

27 The appropriations in this section are subject to the following  
28 conditions and limitations:

29 (1) \$1,158,000 of the education legacy trust appropriation for  
30 fiscal year 2006 and \$2,317,000 of the education legacy trust

35 student FTEs by campus enrolled with the funding provided in this  
36 subsection.

1 (2) The appropriations for higher education employee compensation  
2 increases provided or referenced in this section and described in  
3 sections 949 through 980 of this act are estimated to increase the  
4 total per student funding during the 2005-2007 biennium. This increase  
5 in total per student funding is in addition to the tuition revenues  
6 that will be generated and retained by the university as a result of  
7 the tuition increases that are authorized in section 601 of this act.  
8 Given these increases in core funding, Western Washington University  
9 shall, by June 30, 2007, show demonstrable progress toward achieving  
10 the following six-year programmatic goals:

11 (a) Improve time to degree as measured by the percent of admitted  
12 students who graduate within 125% of the credits required for a degree;

13 (b) Preserve access for low-income students as measured by the  
14 percentage of total degrees awarded to Pell Grant recipients;

15 (c) Improve freshman retention rates;

16 (d) Improve and sustain the quality of its degree programs as

34 to be limited for residents of North Snohomish, Island, and Skagit  
35 counties. The higher education consortium created to serve the region  
36 has not been able to successfully address the region's access needs.  
37 The university center model of service delivery, centered on a

1 community college campus with a single point of accountability, has  
2 proven more effective in developing degree programs and attracting  
3 students.

4 Therefore, the management and leadership responsibility for  
5 consortium operations are assigned to Everett community college.  
6 Everett community college shall collaborate with community and business  
7 leaders, other local community colleges, the public four-year
